NOTES

• In the CATI program, respondents who fulfill B18days ≥ 360 or B18 = 12 months are getting into B21 and B22, although the logic in the questionnaire was designed to exclude this subset of respondents from B21 and B22. The responses to B21 and B22 for this extra set of respondents should remain in the dataset since they add extra valuable information.

• PROGRAMMER – We need a help screen available at all times that provides the following text:

If you have questions or concerns about the study, or if you feel that you have been harmed as a result of study participation, you may call the State of Ohio at 1-888-643-7787.

• The following are variables that will be loaded into the CATI from the sample file:
  • CALL TYPE. 1 = Landline, 2 = Cellphone
  • INCENTIVE. 1 = $10 incentive, 2 = No incentive

This version matches the programming specifications as of 5/12/15.

This version includes the client recommendations as of 12/08/15.

Your telephone number was chosen randomly and all information will be kept strictly confidential and only reported in group form. This call may be monitored or recorded for quality assurance. (FILL: IF INCENTIVE=1 The person selected to participate will receive a $10 electronic gift card for completing the survey.)

(IF NECESSARY: We are also interested in experiences of persons who do not have health insurance. The sponsors need your household’s input to make health care policy decisions that may help you and your family. This survey should take 20 minutes to complete. I work for RTI, a survey research company contracted by the Ohio State University on behalf of the State of Ohio. If you have questions, concerns, or complaints about the study, you may call the State of Ohio at 1-888-643-7787.)
