

# Management of Perinatal Emergencies: A Patient Safety Webinar Series

Presented by The Ohio Pregnancy Associated Mortality Review and  
The Ohio State University Clinical Skills Education and Assessment Center

September 21st

## *Pilot to Co-Pilot: Strategies for Improved Communication in Labor and Delivery*

Poor communication and teamwork is a leading cause of harm in healthcare, but there are ways to improve them. Healthcare workers need practice and direction in how to work as teams. This talk will discuss some of the approaches to improve teamwork in obstetrics, framing patient safety as a social movement in addition to the implementation of tools and bundles.

### OBJECTIVES:

1. Highlight the importance of communication in quality care and adverse events.
2. Review formal strategies used to communicate and work in teams.
3. Discuss the informal approaches to teams and teamwork in healthcare.
